FINDINGS

Selling Social: Experiences of Social Enterprises with Social Procurement and Social Purchasing presents the findings of a three-year (2017-2020), pan-Canadian research project detailing experiences with social procurement and social purchasing from the perspective of social enterprises, as well as their organizational purchasers. These 19 profiles highlight the cases presented in the book and illustrate unique features that make them of interest to practitioners, scholars and students of the social economy.

This research is supported in part by funding from the Social Sciences and Humanities Research Council of Canada.
